UNDERSTANDING THE REPORT

Objectives

Academus has an academic and co-curricular checkpoints for students. These checkpoints are the expectations of what students need to know and are able to do.

Academic and Co-curricular Checkpoints are important because they help ensure that all students are successful in school. They provide a framework of clear and consistent expectations for students, parents, and teachers; assist in building the child's knowledge and skills; and set realistic goals for all students.

Testing

Academus has a set standard of assessing its students using formal and informal methods. Our testing is based on year round evaluation and portfolio analysis of students.

Evaluation Rubric

Key Attributes	Key Symbol	Description
Exceeds Learning Expectations	ELE	The child displays impeccable progress towards set objectives and goals. The child achieves all milestones independently and is also willing to help and motivate peers. The child displays exceptional development goals.
Meets Learning Expectations	MLE	The child meets all the learning outcomes with precision and clarity of understanding. The child achieves all tasks independently. The child is meeting all developmental goals that are age-appropriate and exhibiting great skills.
Progressing	P	The child is at an intermediate level, and is completing the given tasks in a satisfactory manner. The child completes all tasks with little or no help. The child needs encouragement to reach optimum results.
Needs Improvement	NI	The child is starting to attempt or is in a phase of development. The child completes the given task with the help of class teacher. The child is expected to produce the desired results and objectives towards the term end.

COMMUNICATION, LANGUAGE AND LITERACY (ENGLISH)

REMOVING BARRIERS

A child's way of effectively communicating with the world plays a major role in life. A well-articulate and expressive child can take leaps of success on his/her own. A strong communication background, makes the world an oyster for the child.

TEACHER REMARKS & NOTES

NUMERICAL SKILLS

EARLY MATHEMATICAL DEVELOPMENT

Complex, problem solving, analytical skills are developed from a very young age. Numeracy gives children a tool to comprehend data and objects.

AREAS OF DEVELOPMENT	ELE	MLE	P	NI
Numbers to 1000				
Is able to read and write numbers within 1000				
Can sort odd and even numbers				
Can use Money Notation				
Place Value and Rounding				
Is able to read and write place values				
Can multiply numbers by 10				
Can compare and order numbers within 1000				
Is able to round off numbers to the nearest tens and hundreds				
2D and 3D shapes				
Can classify and sketch polygons				
Can tell the difference between regular and irregular polygons				
Can identify Lines of Symmetry				

NUMERICAL SKILLS

AREAS OF DEVELOPMENT	ELE	MLE	P	NI
Addition and Subtraction				
Use Commutative and associative rule				
Use compliments of numbers				
Add and subtract money				
Use objects to stand for unknown				
Perimeter and Area				
Can find the perimeter of 2D shapes				
Can find the area of 2D shapes				

Quantitative

INFORMATION, COMMUNICATION AND TECHNOLOGY (ICT)

Leading the Digital Revolution

The 21st Century world requires individual to adopt new computing and technological methods. In a growingly tech-savvy world, we want our students to lead by example and go into fields like Big Data, Machine Learning, Artificial Intelligence, Block Chain, Cryptocurrency and so on. Polishing IT skills of young learners at an early stage is therefore imperative.

AREAS OF DEVELOPMENT	ELE	MLE	P	NI
Knows how to work faster with shortcuts				
Knows how to compress file and folder				
Knows how to view more information about the files				
Knows how to delete file from computer				
Knows how to change basic computer settings				
Can use antiviruses to protect computer				
Can create a document that is easy to read and eye catching				
Can insert image in document				
Can apply spelling check and use thesaurus				
Can print and save				
Can manage contact				
Can send a message to more than one person				
Can send photo, video or a document via email				
Can write an email				
Can attached a file in am email				
can receive an email message with attachment				
know that tips of an email.

SCIENCE

Fact and Research

Science, derived from Latin word scientia, means knowledge. Modern science is divided into three major branches that consists of natural sciences (biology, chemistry, physics), social sciences (economics, psychology, and sociology) and formal sciences (logic, mathematics, computer science). All these subject knowledge areas are important in real world.

AREAS OF DEVELOPMENT	ELE	MLE	P	NI
Biology				
<u>Life Processes</u>				
Is able to differentiate between living things				
Can identify the life processes common to plants and animals				
Is able to sort vertebrates into their respective classes				
Is able to explain and compare the life cycle of different animals				
Is able to describe and compare how the offsprings of different animals grow into adults including humans, birds, frogs and butterflies				
<u>Plants</u>				
Is able to identify the different parts of a plant				
Can describe the functions of the major parts of flowering plant				
Is able to explain that plants need appropriate conditions to be healthy				

SCIENCE

AREAS OF DEVELOPMENT	ELE	MLE	P	NI
Chemistry				
<u>Solids, Liquids and Gases</u>				
Can describe the properties of Solids, Liquids and Gases				
Is able to differentiate between a Solid, Liquid and Gas				
Physics				
<u>Forces</u>				
Is able to explain Mass, Weight and Gravity				
Can explain how friction is produced				
Can describe the effect of smooth and rough surfaces to generate different amounts of friction				
Earth and Space				
<u>Earth in Space</u>				
Can identify that the position of Sun changes with respect to Earth but it is actually the Earth that moves and not the Sun				
Can identify the different phases of the moon				

Quantitative				
1st Assessment	2nd Assessment	Mid of Year	Total	Percentage
/25	/25	/100	/150	%

TEACHER REMARKS & NOTES

HISTORY

Historical Perspective of our World

A child can only conquer the world through appropriate knowledge. In a globalized world, getting to know about your immediate habitat, community, city, country, continent, world, and beyond is imperative for succeeding.

AREAS OF DEVELOPMENT	ELE	MLE	P	NI
Can demonstrate how people lived in the Stone Age				
Knows the types of farming used in the past				
Can examine similarities and differences between lives in the past and present				
Can use evidence to find out about the Stone Age people				
Knows how people lived in the Bronze Age and Iron Age				
Can describe how people first began making things from metal

SELF REFLECTION

	MY LEARNING EVALUATION	ALWAYS	MOST OF THE TIME	SOMETIMES
1	My teachers provide me with feedback about my learning on a regular basis.			
2	My teachers help me to understand the mistakes I have made.			
3	My teachers regularly mark my work and return it to me promptly.			
4	My teachers provide support when I am having difficulties.			
5	I am encouraged to give feedback to teachers on my learning.			
6	In my assignments, I know what I have to do to be successful.			
	MY VOICE	YES	NO	MAYBE
1	Did the lesson/topic achieve its stated aims?			
2	Did you find the work easy?			
3	Were you able to ask for help if you didn't understand something?			
4	Did the feedback you received from the teacher improved your learning?
